Gentlemen,

Besides the several portentous Prodigies mentioned in the Latter end of this Book, there are two others lately happened, viz.

I. The first was the dark Sunday, January 12. 1679. On which day some feared there [illegible] Truth, that Sir Edmond Godfrey did appear to several. Where-as he (poor Gentleman) was laid too low by wicked hands, never to rise again, until he be found at the last Trumpet, when all [illegible] shall Publickly reproach him, and confess their Crime.

The Darkness happened between 10 and 11 of the Clock, at Noon and was caused by the Obscuring the Sun in 4 ♑ in 18 ♒ for Light and the same Cause happens once every Month, though not so eminently notorious. For it's observable, that then the Air was greatly disposed to Clouds, with Cold, Snow and Rain; all which made the Darkness the more perceptible and astonishing. And though the same Cause do fall out Monthly, yet it is not ever attended with a cloudy Air, &c. neither doth it happen always in the day time, or on a Sunday, and in Dismal Season. Nay, it is to be further considered, that the place of the Zodiack in which the ☉ ☽ fell, was forward, for one of the four Gates of Heaven, whereas the learned in Meteorology have set up their Marks. Of which I've more in a Discourse shortly Printed, before my last twenty years Ephemerides, lately published.

II. The second was, The great Hail-Storm which fell on May 8, last Year; — and the Night before (accompany'd with great Thunder, &c.) some were of near 7 or 8 Inches about; as my self saw. But though this great Hail,

Hail, &c. was wonderful, yet to wise Naturals, and bad a Cause in the Heavens. Many deem'd them Omens, and so perhaps they were, although they had a natural Cause. Some confess never to have seen the like before. Yet, to shew you that the thing was not miraculous, (for our Ignorance ought not to make Miracles, though it often do so.) I will acquaint you when the like Storms of Hail have formerly happen'd.

I. Anno 1543. on June 23. Stow tells us, that Hail-stones fell in Lancashire as big as Mens Fists, and that they had divers prints in them: some like unto Men's Faces, others like unto Gun-holes, &c.

II. Anno 1575. July 30. P. M. Great Tempests of Thunder, and Lightning, with Hail-stones in many places of 6 or 7 Inches about, which struck many Men and Beasts dead.

III. Anno 1600. on ♃ July 16. at Ryse, and other Towns in Norfolk, a great Storm of Hail fell, doing much harm. The Hail-stones as big as Walnuts. And they were taken up on ♀ following by handfuls, then wasted to the bigness of Hazle Nuts.

Now, a fine news of another Prodigy, affirmed by the Gazette, and others, from Ulster in the Kingdom of Ireland, viz. That on ♄ June 26. last Year, there happen'd great Floods doing much harm, and accompanied with an Earth-quake, which tore a Mountain in above ten several places, destroying abundance of Cattel, and above fifty several Persons. And, can ye not discern the Signs of the Times?

Gentlemen, I am,

Your Servant, and Votary,

JOHN GADBURY

Good is the Law; and to do Good design'd:
If its Executors for Gain shall grind
The Face of Justice, and oppress the Poor;
There's another Law for them in Store.
Which neither Judge nor Jury can withstand,
No Works of Error frustrate Heaven's Hand.

Astrological Observations.

Exurget Deus, dissipentur Inimici.

An *Aspectio Parranum* begins the Year as to the Weather; but I hope the Quarrel as to mundane actions, because their Planets are in humane Signs. —— Let Justice, Peace and Charity be still the happy New-years gift to this Nation; and Honour and Success such to the most merciful Sovereign thereof; and then no Plots against either can prosper. —— *Mars* and *Jove* trine the *Sun*, and none but unquiet Spirits will provoke the Magistrate to use his power severely. The pretence of Passive Obedience is too stale a cheat to be any longer swallowed. The Law was made to be obeyed, not to be opposed by a pretence of Suffering. And Traitors, Thieves, and Murtherers, when punished for their misdeeds, are as passively obedient as the Non-conforming Brother. —— The slow motion of ☿ and ♀ intimate some great Affairs, Southward, at a stand: yet their △ and reception, &c. promise a conquering of all difficulties. —— The ☌ ☿ ♀ shews a great Lady a little too negligent of her Honour. —— The Merchant thrives. Princes, and Men in Authority, like good *Samaritans*, find sundry ways to heal the Breathes of some late disturbed Nations.

If *Paris*, and sundry other Countries of *France* be under ♏ the angry Aspects seem to tend that way. *Anno* 1649. ☌ had the like tedious Progress through ♏. By the History of those times, you may guess what he will produce in these.—☿ in ♈ elevates the Genious of *England*, and gives her a power over her Forreign as well as Domestick Enemies, whereby her Peace is secured. Some Learned Persons meet Honour and Preferment, but the ☍'s of ☉ ☌ & ☿ turn many out of their places for tricks of Craft and Improbity; and gives matter of designs against some great Person or Persons, who happily discover the Artists. Let Princes have a care of *Machiavilian* Councils; they are like to prove as fatal as *Machiavil* [illegible] *Venice*, and will privately fetch up abundance of sticky treacherous Stuff, that may make some mischief. *Candles burn Blew*, as at the appearance of Spirits. Astrological Observations.

The Planets are in much friendship, and ♃ in ♊ recovers the *Twin-City* from the *Rickety Face* it hath long labour'd under. Many *Agents* and *Ambassadors* come to Court [illegible] for Friendship; who is now happy in his *Domestick Concerns*, as well as his Foreign. At the latter end of the Month the ☐ ☉ ♂ shews *Mischievous purposes* are not wanting to kindle *Commotions*; but Justice is Eagle-ey'd, and they are assuredly met withal. For *Hermes* in the *Full* makes but blundering unsuccessful Planners, *viz.* such as can never weave Tissu'd Honours for their party (which they all exceed) but large [illegible] rather to incompass [illegible] can it. God preserve us from [illegible] by Fire, Assassinating and Thunder; [illegible] and [illegible] finally [illegible] Let Caution in Power, in [illegible] of Plots ever [illegible] and England will be [illegible] Nation.

Hermes at home [illegible]
And unto's *Council* [illegible]
He, would *be* [illegible]
To make a *Friend* of *Sol* and *Jupiter*.

Astrological Observations.

A notable active Month, as well in Courts and Cities, as in Camps; and two Thirds thereof begets Fortunate Conceits, & discovers many private Frauds, whence divers are discarded their Commands and Employments. The Scorpion very officious, and doth some injury to men of Honour and Integrity; but we hope not much. Mars leaves Virgo, and a Warlike Prince or Emperor loseth ground. Nor continue all his late stupendious successes. Some fear of a sickly season. The Gall contronts the Liver, and thence Head and Gall both offend the Brain. Many Ships richly laden arrive from the East Indies; and much and various Treasure from several parts. I hope no new Alliance of the Turk against Christendom. Lord God! into what a Labyrinth is poor Europe plunged! Can no thing quiet our Christian Divisions, but the terrour of a Mahometan Force? Shall Christians still contend, and like the Dog and Snake in the Fable eat one another? Will they never leave worrying both

July hath XXXI Days.

Bright *Jove* reigns, and all is trangquilized,
With splendid Sun-shine the earth refreshed.
Chronus disturbeth, and with cold Clouds
Doth *Passion* raise, and fear of high events.
The *Air* is troubled, so are *Nations* too,
Under the *Crabs* at what their *Betters* do.

Astrological Observations.

Saturn joined to the *Sun* in *Cancer* will produce *cloudy weather*, and much melancholly in the *breasts* of some great Persons; and procures also great trouble and disturbance to *divers Societies*, possibly to the restraining, if not taking away some *Charter* or *Charters*, &c. But the swift application of *Mercury* to *Mars*, *Venus* and *Jupiter* cleare up mightily *cloudy matters* of busines. ——Let *Crocodil* change his sign, and strive to nullifie his *Crocodil's influence* upon the *Lion*, who will bravely reduce his treacheries and dissimulations. Albeit his Trine further will make room for the effects of his *Triple Conjunction* with *Jupiter* now shortly approaching ——— eminence elderly ——— grown weary of this world, by a tedious lingring disease, is hastning to a better. ——— *Consumption*, *Stone*, *Breast*, *Gout*, *Scurvy*, &c. do now *persecute* the *dayes* of many *elderly persons*. Several also *die suddenly*. From which and all other *evils* ——— *Libera nos Domine*.

Grim *Corpus*, *Mars* doth square ; *Mars* hath the *Odds*.

The two *Superiours* in this Month retreat,
And *Mars* doth to his *Mansion* go:
Some *great ones* do consult their *Counsels* feat,
Good *Laws* revived for good *Commons* show.
Chronus and *Jove* in both *Trigons* set,
And *Hermes* shews some *Active Clarke* undone.

Hermes two Months in *Sagittary*, would
Some *secret frauds* in *Virgin* bounds unfold,
But fears he can't be heard: *Jove*, and the *Sun*,
Do *meet* in hostile *Opposition*,
When angry *Aeolus* makes tall *Cedars* nod,
The *Backs* of *Shrubs* do often feel the *lash*.

Astrological Observations.

A mild *Air*, and gentle *Aspects* begin the Month, ☽ and ☿ are in △ of each other; and ☿ after a tedious Transit is gotten direct.---But what makes ♄ Retrograde ♑ oppose ☉? The *Rabbies* of the Age are contriving how to *censure* if not to *oppose* the actions of their *Superiors*. But let such giddy *Zealots* know, that they who dare to contemn and confront Authority, will meet with most *severe reproof*, if not *destruction*, or deprivation of the *Faculties* they at the present possess. And none but a *Fatuus* thrown from Heaven, can hope to fall upon his feet.---The late repining *Mercury* begins to *look merrily*, and is pleased with his happy returns.---God preserve his *Majesty* and the Church of *Great Britain*, &c. and *defend him* and *us* from any more such *Barrid* and *Mortable* Plots, as of late years most strangely *afflicted* the *Nation*. Another all true *Englishmen*, *Fear God* and *Honour the King*, *and meddle not with them that are given to change*.

Learned

learned *Cyprian Leovitius*, which he wrote and printed upon like Occasion, and is as follows, viz. *Hopefully I am secure from the most envious* among men will not offer to *play furious* upon the back of my *Reputation*, as sometimes they most *cautelously*, but very *maliciously* have done.

Leovitius his words are these, being written of the year of our Lord 1591. which I apply here to 1681. *Tempore hujus revolutionis mundi solus & sterilis decernit, sed cum quadam inconstantia. Nam sæpius remittetur & alleviis remunerabitur. Fortassis etiam impressiones in suprema aeris regione contingent. Ut primum autumni simulare amicitiæ inter homines erunt. Firma inter alteri non fidet. Inter magnates odia nova existent, quæ dissensiones & rixas excitabunt. Unde res ad arma eruent & deveniet, cujus violentiæ par ad quasdam liberas aut præcipuas Provincias vel civitates se extendet, atque ad annulas Ecclesiasticas personas & item Aulicos.——Brevitur ut dicam, multa incommoda Regnis & Regionibus portendi videntur, utpote mortes, exilia, pestilentiæ, mors, &c. Sine alterationes publicarum officiorum & scandala non infrudebunt.* Thus wrote *Leovitius* of the year 1591.

Let the *poyson* of these Venefick presages *befall the enemies of the Church of God, and Great Britain*, and give us (Oh God!) *faith, truth* and *peace* among us, in these sad, troubled, and vainglorious disturbed times. Let such, I say, that envy *England's Sovereign, Order* and *Happiness*, feel the *scorpions* of these *menaces*; as indeed I conceive they will, in a very great measure. Not that I can or do expect, that we in these *Islands* shall be wholly free from the *threatnings* of the present vengeance of God. And so I come to speak of the *Eclipses* which fall in this year, which I shall (for want of room) but superficially touch upon.

Of the Eclipses. Anno 1681.

In this year there are but two *Eclipses*, one of the Sun, and the other of the Moon. In the *Eclipse* of the Sun, this Kingdom will be deprived of the light of the *Sun* (the Queen) four times in their duration, but the Moon (*Mary* of Modena, Queen of *England*) shall only be hid in the last *Eclipse* of the Moon, which shall be total and *Central*, the Queen of Heaven (this year) being to us invisible.
